Page 02- Project Contents located in the Project Panel
Page 03- How to Edit Text
Page 04- How to Edit Data
Page 05- How to Edit Colors using the Color Controls in the Effects Controls panel.

INFOGRAPHICS After Effects template V1- UPDATED

PROJECT CONTENTS:

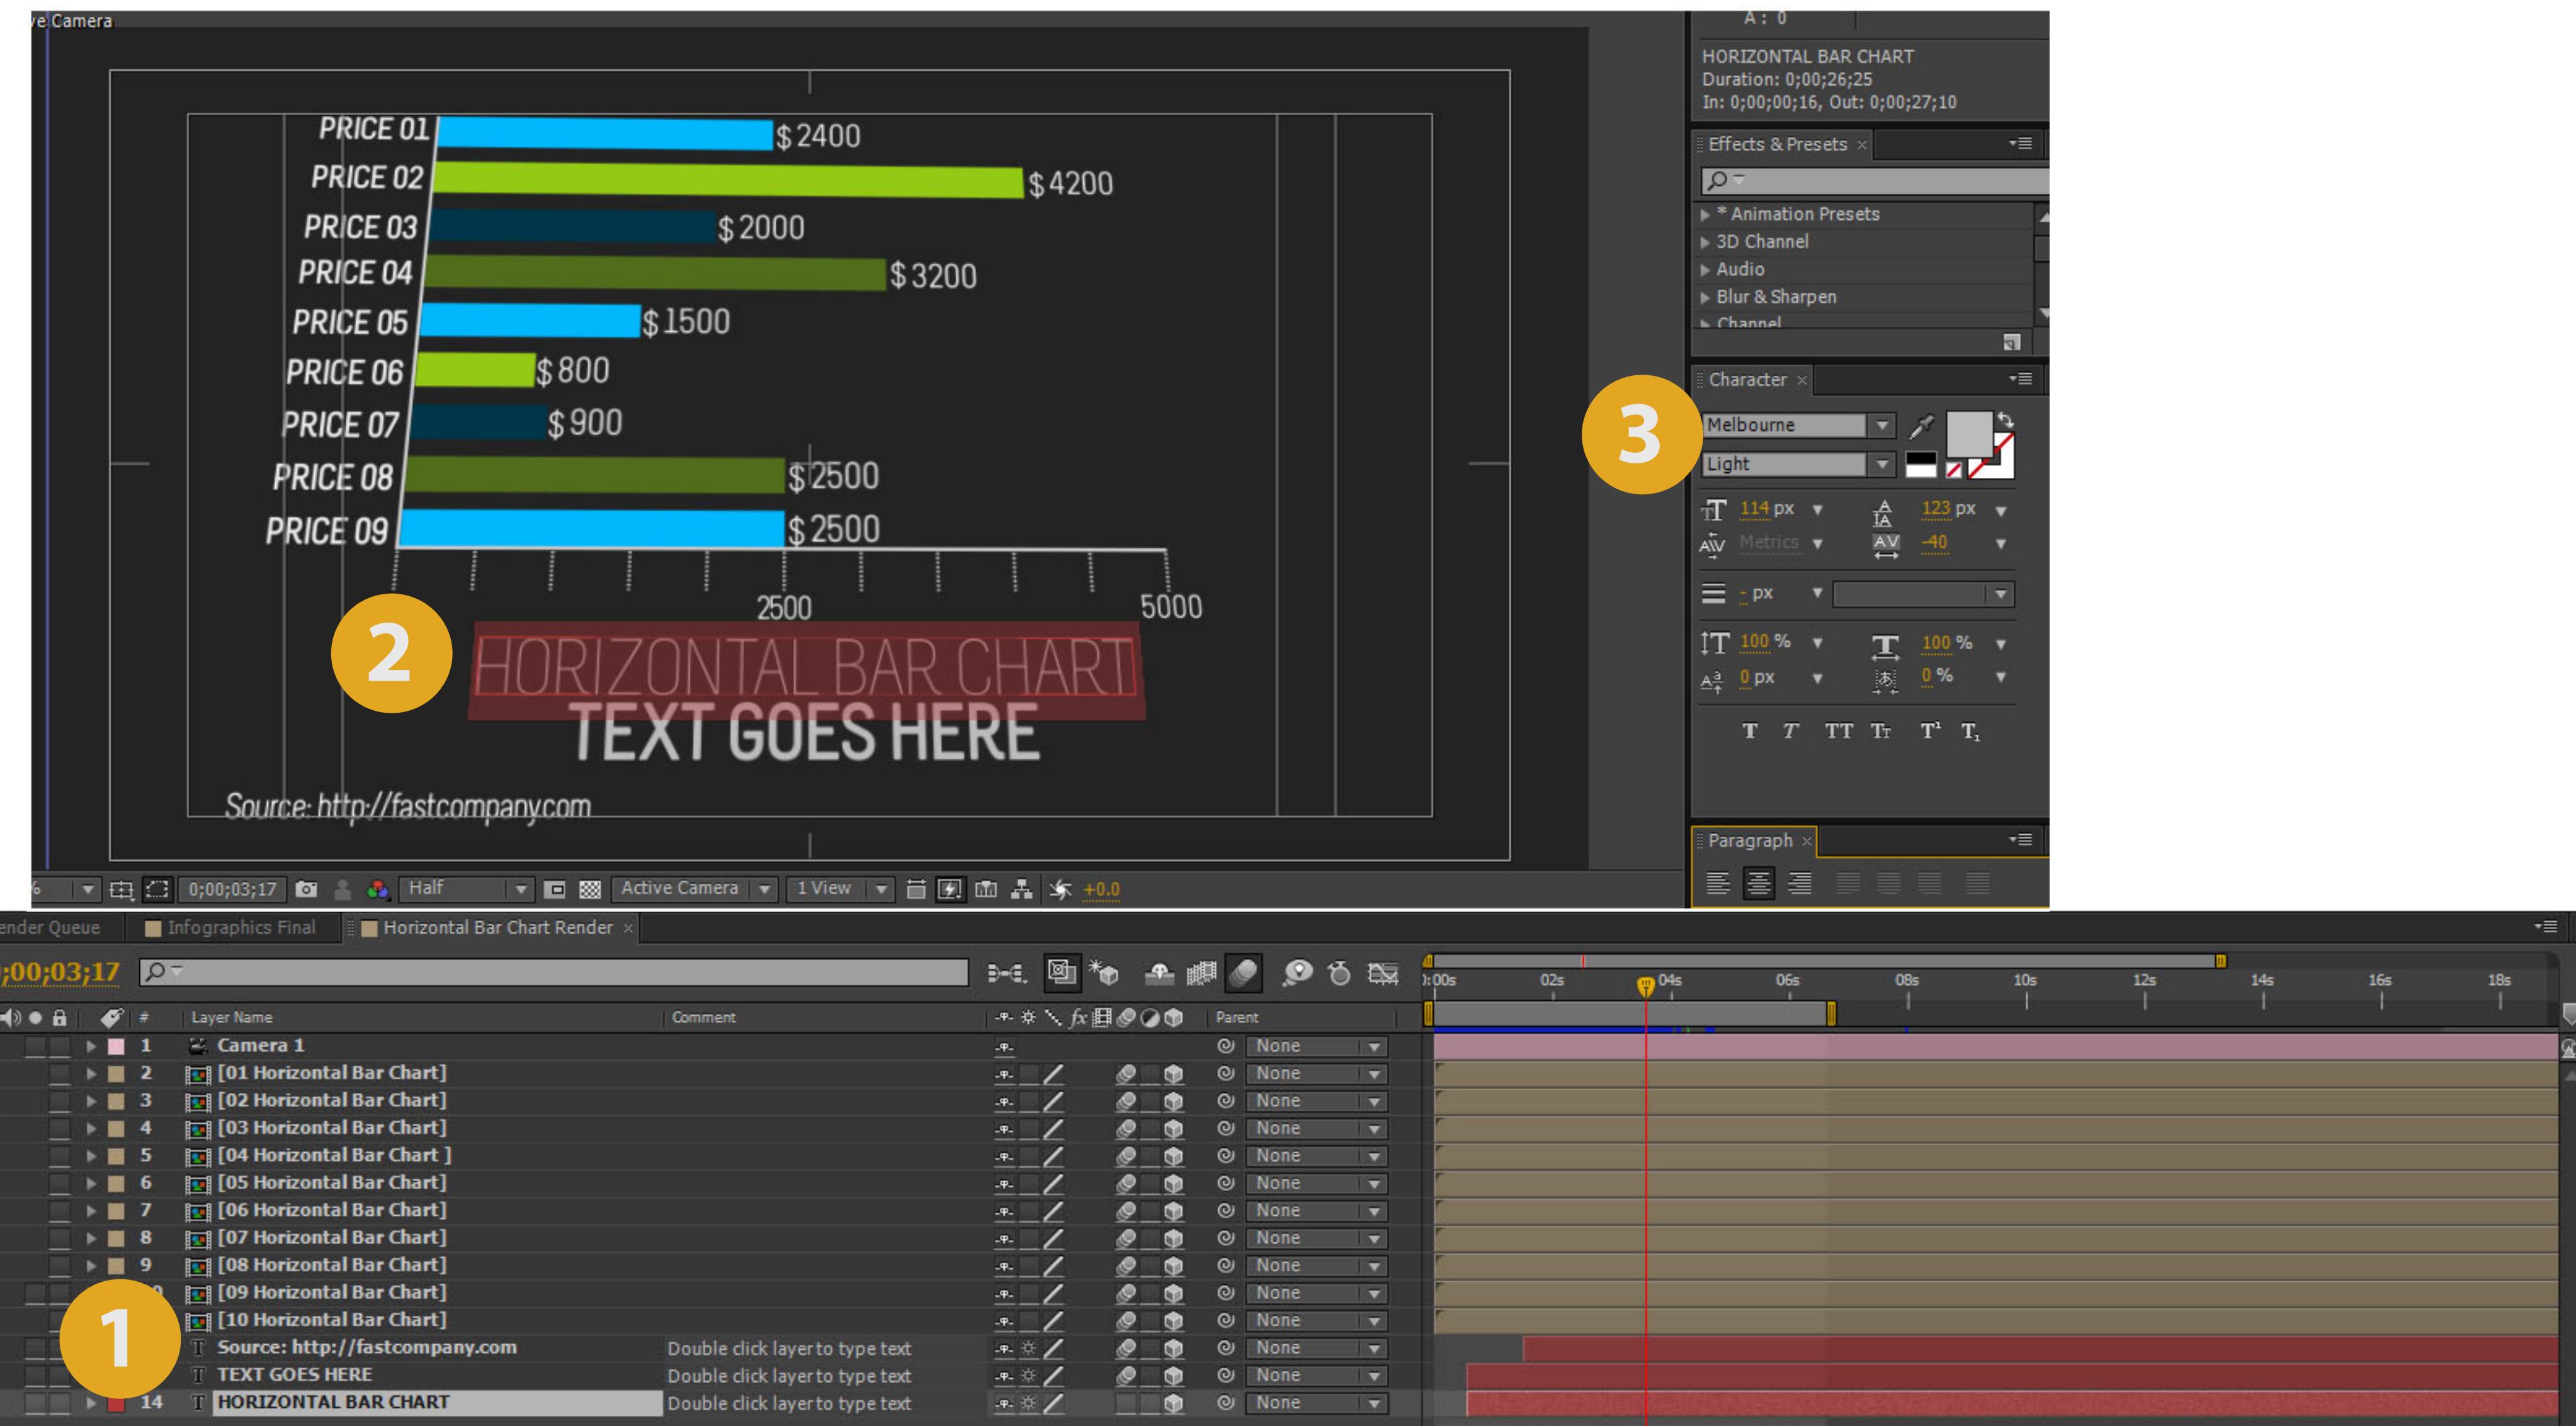

Folders for:

- Circle Pie Charts: 2 different charts
 - Concentric Circle Chart
 - Filled Graph
 - Four Pie Charts
 - half Circle chart
 - horizontal bar charts: 12 charts to choose from
 - line graph
 - percent of females
 - percent of males
 - Pie Charts: 2 different charts
 - Vertical Bar Charts: 12 charts to choose from
 - World Geographic Regions
 - World Percent
- 'elements' folder: contains the source files used to make the animation including SOLIDS, PRECOMPS and SOURCE FILES.
Also contains the Intro Scenes.

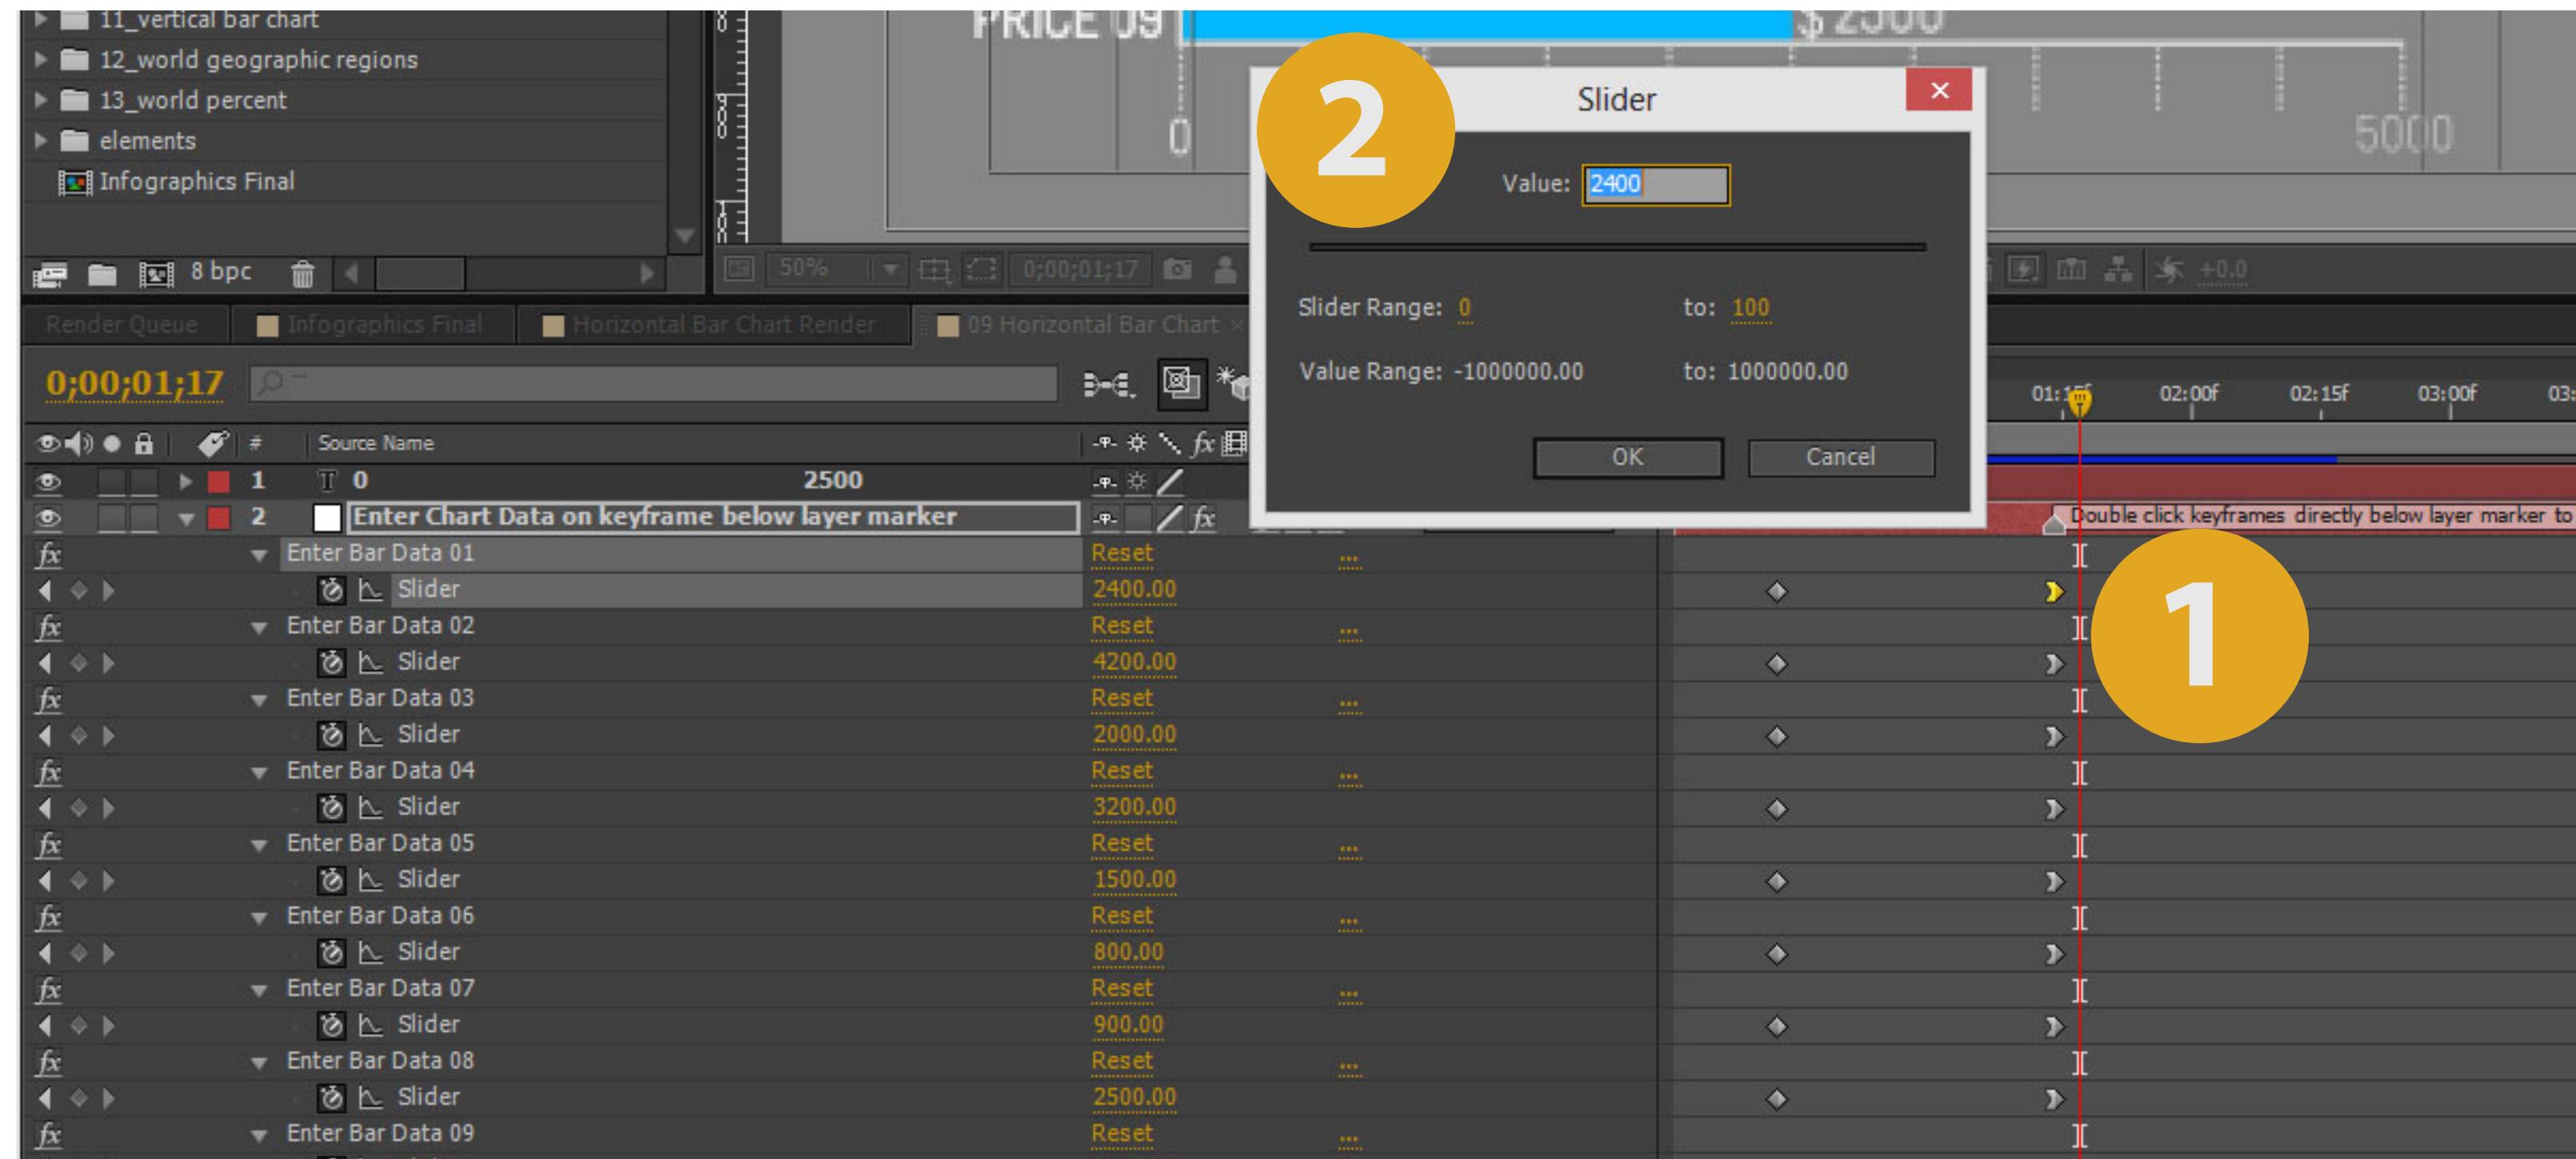

To Edit Your Text:

- 1 In each composition, just double-click the text layer in the timeline (look for the T icon) and start typing in your text.
- 2 See your text in the Composition Viewer, the text will be highlighted, indicating it is editable. Type your text.
- 3 Change the Font, Size and Color of the Text in the Character Panel. (Go to the Window Menu then select Character to open the panel)

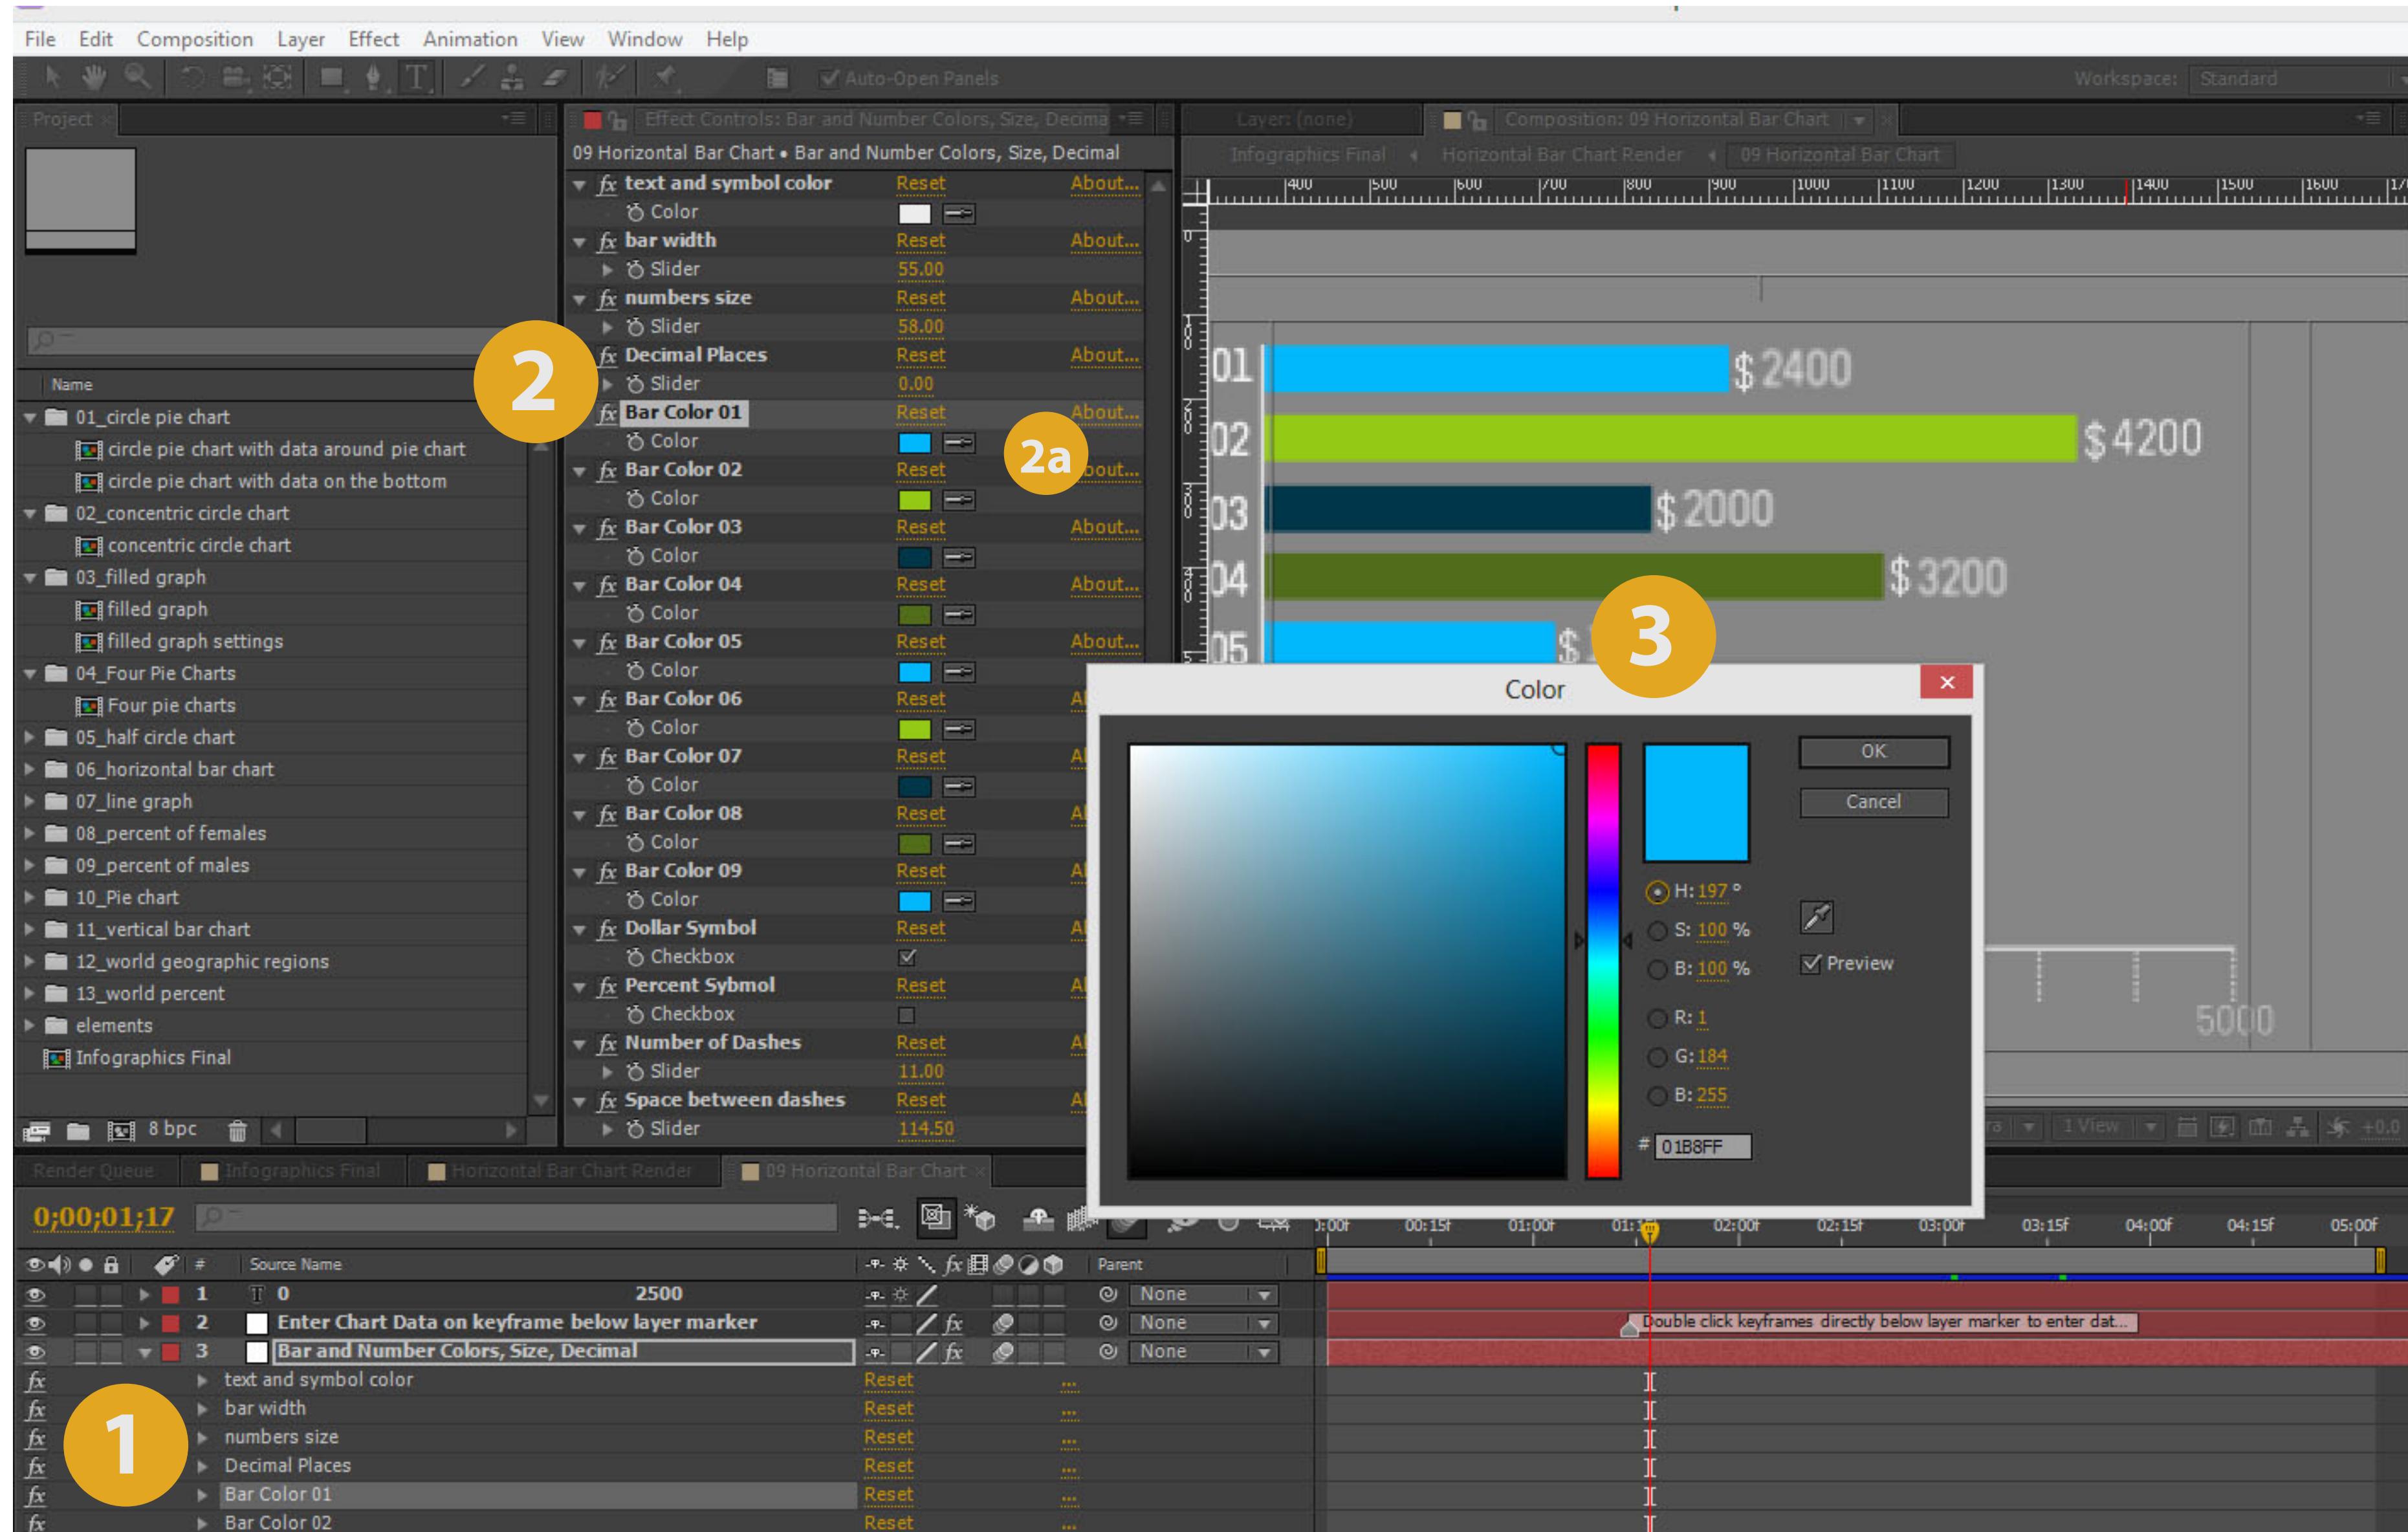

To Change Data:

- 1 Double-click the keyframe below the layer marker on the layer "Enter Chart Data".
- 2 A Slider control box will pop up, use the slider to enter your Data or type your data in the Value box.

To Change Graph Colors:

1 Find the layer labeled Color Control, or Master Color. Go to the Effects Controls panel so see the Fill Effects used to color each graph.

2 In the Effects Controls panel, select the color picker (2a) of the graph you want to change, in this example we're changing Bar 01's color.

3 In the pop up Color window, select a new color then hit OK.
